OBJECTIVE

Second-year B.Tech student aspiring to build a career in Computer Science and Artificial Intelligence, seeking opportunities to apply Python programming, algorithmic thinking while developing strong technical and analytical skills through practical experience.

EDUCATION

B.Tech in Computer Science, Vigan's Institute of Information Technology
CGPA: 9.15/10

Expected 2028

Intermediate (MPC), Dr. Himashekhar Junior College
Percentage: 95%

2022 - 2024

SKILLS

Programming Languages	C, C++, Python, HTML, CSS, JavaScript
Databases	MySQL
Developer Tools	Git/Github, Google Colab, VS Code
Academic Coursework	Data Structures, Python Programming, DBMS, Principles of Artificial Intelligence, Machine Learning

ACHIEVEMENTS

- Completed YUVA AI for All – Future Skills (Government of India initiative supported by NASSCOM), gaining foundational knowledge of AI and future-ready digital skills.
- Completed Prompt Engineering for All by IBM SkillsBuild, focusing on effective interaction and task design with AI systems.
- Earned Python Programming Certification from Simplilearn, with hands-on experience in core programming and problem-solving concepts.
- Completed C Essentials and HTML Essentials certifications by Cisco, strengthening fundamentals in programming and web development.
- Participated in a Hackathon conducted by Vignan's Institute Of Engineering for Women, collaborating with a team to analyze a real-world problem and propose a technical solution.
